

Purasoft™ is a soft wash glove ideal for patient's daily wash.

Purasoft™ is a soft wash glove ideal for patient's daily wash. The tear proof, non-woven flannel, gives Purasoft superior softness, water absorption capacity and strength.

Because Purasoft™ is disposed of after each use, it reduces the risk of cross contamination.

Purasoft is:

- time saving
- efficient,
- cost effective
- a safe alternative to textile wash-mittens,
- reduced risk on cross contamination

Composition glove
Viscose 55%
PES 15%
PP 30%
+/- 80 grams per m2
